# Window Shine

Mirror & Glass Cleaner

# Window Shine

## Where to Use

Window Shine cleans and polishes any washable surface and dries film free. Use Window Shine on windows, mirrors, counter tops, office furniture, appliances—any shiny surface will sparkle when cleaned with Window Shine. This economical product outperforms expensive aerosols at a fraction of the price. Window Shine means fast dry times, excellent cleaning power and no streaks.

### Benefits

- Ready to use, non-aerosol formula.
- Ammoniated.
- Economical.
- Will not streak.
- Fast and easy to use.

### Dilution

Ready to use.

### Directions for Use

Spray on Window Shine, holding the sprayer about one foot away from the surface and polish promptly with a clean, lint free cloth. Do not spray too large an area at one time. Where no sprayer is available, use a cloth dampened with Window Shine, and polish off with a clean, dry cloth.

Note: When using to clean painted, varnished or lacquered surfaces test an inconspicuous area for compatibility before using.
